

BLEND on Koningsdam & Nieuw Statendam

CREATE YOUR OWN WINE AT BLEND BY CHATEAU STE. MICHELLE

Wine connoisseurs and novices alike can experience the art of winemaking at BLEND aboard *Koningsdam* and *Nieuw Statendam*.

BLEND YOUR OWN WINE LABEL

In collaboration with Chateau Ste. Michelle, Washington State's oldest and most acclaimed winery, this intimate venue offers the opportunity to blend your own wine and enjoy it at dinner or in the privacy of your stateroom.

The first of its kind for Holland America Line and the only purpose-built wine-blending venue at sea, BLEND has a tasting table that accommodates 10 guests, who can create their own blend from a selection of five barrels of single-vineyard red wine. In addition to participating in the blending process, you'll also learn about wine from the ship's wine expert, who leads the blending session.

IMMERSIVE EXPERIENCE

After viewing a welcome video by Bob Bertheau, Chateau Ste. Michelle's winemaker, you will learn interesting information about the history of Washington wines and winemaking, examine soil samples and see how different vineyard sites impact the flavors and style of the wine. The Cellar Master will instruct you on what characteristics, flavors and nuances to look for in the wine from each barrel.

Then, sample the five unique wines available for blending and determine how much of each wine to include in your personal bottle. After the personalized wine blend is put into the bottle with a stopper, you will be able to create your own label to add a personalized touch.

ONE-OF-A-KIND EXPERIENCE FOR WINE GROUPS

BLEND offers wine groups an exclusive opportunity to learn the art of winemaking and blend their own label — all while exploring the world's most fascinating places in the comfort and elegance of Holland America Line's newest perfectly sized ships, *Koningsdam* and *Nieuw Statendam*.

HOW TO BOOK WINE GROUPS AND INDIVIDUALS
